

# Machine Operator

We have an exciting opportunity at Lewis Pies and Pasty. We are currently looking for a machine operator to join our team based in Swansea. The successful candidate will join us on a full time, permanent basis and will receive a competitive hourly rate.

Demonstrable experience is required, although you don't need formal qualifications, you will need to display your skills. You don't necessarily have had to work in the bakery environment but must be able to show you have run machinery including setting up, breaking down and managing paperwork for runs. It's important that you have basic PC skills to enter data into a webpage.

The main purpose of this role is to produce pastry lines on a specialist piece of equipment. Product must be processed within the timescales at required run rates and achieve quality standards.

You will be fully trained on the equipment for a period of time and will have senior team on the shop floor to oversee and support you.

## Key responsibilities of our Line operator:

Ensure all equipment and machinery being used is processing product to the required standard. Must have strong communication skills to liaise with line managers and other aspects of production to meet targets.

Ensure the agreed specifications are adhered to and any deviations must be identified and rectified.

Ensure product yields are met, line speeds are managed and weights are correct

Must be confident handling and running and directing a small team.

You will need to follow the traceability process and labelling and bring ideas forward to minimise waste in any way possible.

Must have excellent hygiene and competence with completion of paperwork.

You will need to assist management when training new staff.

You will work in a continuous improvement environment bringing challenges to the management team and making suggestions to improve the daily flow of work.
